OBJECTIVE

As a full-stack developer, I specialize in creating robust, scalable, and user-centric applications. My passion for solving complex problems drives me, and I excel in collaborative environments. Committed to staying abreast of technological advancements, I actively seek opportunities to contribute to innovative projects.

WORK EXPERIENCE

- AHZ Associates| (Full Stack Developer)** 04/2024 – Present | Noida
 - Develop responsive UI components using React, Vue.js, Tailwind, HTML, and CSS, based on Figma designs.
 - Focus on frontend development, collaborating closely with PHP backend developers for integration, while primarily working with react.js and frontend technologies.
 - Work with testers to ensure code quality and smooth deployment of features.
 - Ensure seamless collaboration with the design team to translate Figma designs into functional and visually appealing web interfaces.
- Deepmindz Innovations Pvt. Ltd| (Full Stack Developer)** 09/2022 – 09/2023 | Noida
 - React.js and Node.js for UI and backend development.
