👤 Profile Summary

Full Stack Developer with expertise in React.js, Next.js, Node.js, and MySQL, MongoDB. Passionate about building scalable applications, solving complex problems, and collaborating to deliver innovative, high-impact solutions.

✜ Core Competencies

- **Frontend:** React.js, Next.js, Vue.js, JavaScript, HTML, CSS
- **Styling & UI Libraries:** Tailwind CSS, Bootstrap, Material-UI (MUI)
- **Backend & Databases:** Next.js, Node.js, MongoDB, MySQL
- **APIs:** RESTful APIs, Development & Integration
- **Version Control:** GitHub

📜 Award & Recognition

Appreciation Award – AHZ Associates (Jan 2025, AGM)
Recognized by the CEO during the Annual General Meeting for outstanding performance and a key role in the successful execution of high-impact AHZ projects.

🖥 Technology Stacks

- React.js
- Next.js
- Node.js
- Vue.js
- MySQL
- MongoDB

🎓 Education

Master of Computer Application (MCA) | 82%
Shri Ramswaroop College Of Engineering and Management (Lucknow) — 2020 - 2022

Master of Computer Applications (MCA) graduate with expertise in software development, databases, and web technologies. Strong programming and problem-solving skills, preparing for dynamic roles in Full Stack Development and software engineering.

Bachelors of Computer Applications (BCA) | 81%
Babu Banarasi Das University (Lucknow) — 2017 - 2020

Earned a Bachelor of Computer Applications (BCA) with expertise in computer fundamentals, programming languages, and database management. Developed skills in web development, networking, and software engineering, laying a strong foundation for advanced studies and professional growth in IT.

💼 Experience

Full Stack Developer — April 2024 – Present
AHZ Study Abroad Pvt. ltd.

AHZ Study Abroad, a UK-based education consultancy operating in 15+ countries and part of MH Global Group. I Contributed to in-house education portals by developing frontend and backend with React.js and Node.js, implementing APIs, and managing version control via Git/GitHub.

Full Stack Developer — Sept 2022 – Sept 2023
Deepmindz Innovations Pvt. Ltd.

Deepmindz is a global IT services and solutions provider. I contributed to various projects, developing frontend and backend using React.js and Node.js, implementing APIs, managing version control with Git/GitHub, and defining project specifications based on client requirements.

⚙ Technical Expertise

Frontend Development:
Built responsive UIs using React.js, Next.js, Vue.js, and Tailwind CSS.

Backend Development:
Developed scalable solutions using Node.js, Next.js and collaborated with PHP developers for seamless integration.

API Development & Integration:
Designed and implemented APIs, ensuring efficient business logic execution.

Version Control:
Managed repositories and workflows using Git and GitHub for streamlined development.

Testing & Deployments:
Worked with testers to maintain code quality, perform debugging, and ensure smooth deployments.

💻 Professional Projects

AHZ Associates – *Study in the UK Platform (B2C)*
https://www.ahzassociates.com/

Role:

Full Stack Developer

Tech Stack:

Next.js, React.js, Node.js, MySQL, AWS, GitHub

Environment:

GitHub, AWS, REST APIs, CMS

Project Overview:

AHZ Associates is a comprehensive study abroad platform designed to support international student recruitment for universities in the UK.

Key Responsibilities & Contributions

- Delivered responsive UI and backend features using Next.js, React.js, and Node.js.
- Built and integrated RESTful APIs for seamless data flow across systems.
- Designed scalable backend architecture with secure authentication.
- Managed MySQL schema for efficient data storage and performance.
- Developed a custom CMS for easy content updates by internal teams.
- Deployed on AWS, ensuring high availability and scalability.
- Used GitHub, and CI/CD for streamlined development.

ConnectedHE – *UK Education Portal (B2B)*
https://www.connectedhe.com/

Role:

Full Stack Developer

Tech Stack:

Next.js, React.js, Node.js, MySQL, AWS, GitHub

Environment:

GitHub, AWS, REST APIs, CMS

Project Overview:

It is designed to serve education agents, institutions, and other businesses involved in student recruitment for UK higher education.

Key Responsibilities & Contributions

- Delivered responsive UI and backend features using Next.js, React.js, and Node.js.
- Built and integrated RESTful APIs for seamless data flow across systems.
- Designed scalable backend architecture with secure authentication.
- Managed MySQL schema for efficient data storage and performance.
- Developed a custom CMS for easy content updates by internal teams.
- Deployed on AWS, ensuring high availability and scalability.
- Used GitHub, and CI/CD for streamlined development.

💻 Other Notable Projects

Smart Buddy
Tech Stack: Next.js, React.js, Node.js, MySQL

JustHomz
Tech Stack: Next.js, React.js, Node.js, MongoDB

User Voice Recording
Tech Stack: React.js, Node.js

👥 Cross-Functional Engagement

- Collaborated with design, marketing, SEO and content teams for feature integration.
- Gather requirements, define technical scopes, and align development goals with business objectives.
- Reviewed code contributions, provided feedback, and enforced coding standards through GitHub pull requests and peer reviews.
- Took ownership of end-to-end project delivery by proactively managing requirements, setting clear expectations, and ensuring timely execution.

Driven by a passion for building scalable, high-impact applications and dedicated to continuous learning. Seeking opportunities that challenge my skills and contribute to meaningful, innovative solutions.
